AutoCAD was one of the first CAD software applications to support polylines, which is a type of line that can be used to break up a drawing into many smaller lines. Polylines help ensure more accurate drawings and can be used to create complex objects such as contour lines, which represent a surface. In the 1980s, the introduction of AutoCAD revolutionized the field of computer-aided design (CAD) and drafting, making these types of jobs much easier and less expensive than they had been before. Since then, AutoCAD has evolved into one of the most-used CAD software packages in the world, with millions of registered users and millions of installations. AutoCAD is used to create blueprints, drawings, and engineering schematics for many products and buildings, among other things. AutoCAD is free for all personal users. For business users, Autodesk offers a variety of license options that range from single user to multi-user licenses. The latter offers multiple users the ability to share files, use the software at the same time, and have their own, separate settings for drawing, annotation, and text. In addition to the personal and business licenses, Autodesk offers three service agreements for AutoCAD: standard, one-time, and lifetime. The standard service agreement is the most common and offers 24-hour technical support and online access. Autodesk AutoCAD Standard 2018 is the latest version of AutoCAD available to download from the Mac App Store. Pierre-Emerick Aubameyang began the calendar year in scintillating form, but his superb first-half strike was cancelled out by a second-half header from Arjen Robben as Borussia Dortmund fell to a 1-1 draw with Bayern Munich in the Bundesliga. The Toon striker, who returned from an injury lay-off with a warm reception from the travelling support, opened the scoring against his former club in a slick opening, beating two markers and spinning in his first touch before drilling a rising shot past Roman Bürki. Arjen Robben equalised for the home side as he found space in the centre of the box to turn home a superb cross from a long way out, and he celebrated with his trademark waggle of the index finger after heading home the 95th minute winner. It was a goal that Dortmund head coach Thomas Tuchel admitted was "undeserved" and following his side's first league defeat of the season it left them with a mountain to climb in the race for a top-four finish. However, despite some high-quality football and a handful of tactical tweaks in the second half, it ended up being a point all round as Dortmund conceded for the first time in seven matches. Here, we take a look at some key moments from the match: Key Points Dortmund's dominance of possession, finishing, and goal-scoring in the first half was largely due to the Toon's first-half heroics.
