â€£80.00. by EA Sports...The  
BitTorrent client is a universal  
downloader that's quickly  
becoming the Internet's leading  
sharing app. Once you download  
the software onto your  
computer, it'll always be with  
you whether you want it or not.

---

BitTorrent is the #1 file sharing application in the world, with a large amount of real users connecting and exchanging data. It is considered by many to be the leading peer-to-peer network and is considered by some to be a "rival" to services like Napster, iTunes, and Kazaa. It's powerful, and as far as peer-to-peer

---

networks go, it's great. But, in a world of so many apps, why do we love this particular application? One reason is that it works. From day one, BitTorrent has been extremely simple to install and use. It's free, you don't need to know anything about computers, and if you're concerned with safety and

---

privacy, BitTorrent works through the use of a public/private key pair in which you only ever see the public key, not the private key. It's free, but it may seem like BitTorrent is just a media sharing tool as opposed to the whole purpose of a downloader. That's where the magic comes in. BitTorrent

---

combines massive file sharing with very easy to use advanced search and filtering options. BitTorrent's P2P network is extremely organized. Each and every torrent file out there is connected to another torrent file through the use of trackers. A tracker is a website that acts as a middleman between a torrent

---

user and other users that are sharing a file. One major problem with P2P networks like Limewire, Napster, Kazaa, and now BitTorrent, is the fact that the files aren't visible to the user. How can you know what people are sharing and downloading if you don't know what they're sharing? So, rather

---

than simply uploading the files  
and getting bored, you need to  
search for the file and manually  
download every single link that
